

IN THE CHANCERY COURT FOR DAVIDSON COUNTY, TENNESSEE

**FILED**  
2024 MAR 15 AM 10:52  
CLERK & MASTER  
DAVIDSON CO. CHANCERY CT  
 O.C. & M.

Sean P. Smith,

Petitioner,

v.

TENNESSEE DEPARTMENT OF FINANCE &  
ADMINISTRATION, DIVISION OF  
TENNCARE; and

STEPHEN SMITH, DIRECTOR OF  
TENNCARE, in his official capacity,

Respondents.

Case No. 24-0074-I

---

**Corrected Affidavit of the Authenticity and Informational Accuracy of Exhibits attached to  
Motion for Accomodations**

---

I, Sean Smith, the pro se Plaintiff, do declare and affirm that:

Honesty and Integrity have been and remain principles of paramount importance to me. An accurate model of one's environment and oneself requires accurate data and circumspect analysis. The idea of misrepresenting events or information in records meant to assist myself and my physicians or anyone else is abhorrent to me; it is Anathema. Any record of events I authored and intended to present or presented to my doctors or health plans will have been created to present and preserve an accurate dataset that could allow retrospective analysis at a later date. To deviate from that practice would undermine my efforts to understand my situation and improve my ability to navigate obstacles.

While I am human and have bias like all humans do, and have been experiencing increasing severe impairment and disability, several years ago I realized that my unwavering commitment to being forthright and accurate was not just because that is who I am disposed to being, but is also because if I allowed myself any latitude with lies or misrepresentation I would make myself my own victim, as I would find myself, eventually, unable to differentiate between what were lies and what were facts, and I would have then created a trap from which no one

and nothing could afford me an escape. And so it is that with my upbringing and my character already predisposing me to honesty, integrity, the pursuit and preservation of truth, and my situation necessitating that practice for the purpose of self-prevention, I can attest that to the best of my knowledge and ability the records I am supplying to the Davidson County Chancery Court are authentic and accurate representations of events. Should the court or the defendant desire it, a digital copy of the record can be supplied so that they may further confirm the authenticity of these documents through the file metadata.

Original version Dated March 4th 2024.  
Corrected version Dated March 9th 2024.

Sincerely,  
Sean Smith *Sean P. Smith* 3.9.2024
